### **WRITING #6 – HIP-HOP/RAP ANALYSIS**

Analyzing/Annotating your lyrics: Use the review tab functions to be able to highlight and type comments in the margins. Be sure to do all the items listed here.

- *Genre* – What makes this rap/hip-hop?
- *Message* – What is the writer/rapper trying to say?
- *Audience* – Who do you feel like the intended audience is?
- *Purpose* – Why deliver this message to this audience?
- *Context* – How do the outside influences or circumstances of elements like time, geography, references, etc. show themselves? How is this important?
- *Pathos* – How does the song make you feel? Where is there an example of this?
- *Logos* – What proof or evidence does the rapper use to make their points?
- *Ethos* – Why would we listen to what this rapper says? What credibility do they have?
- *Kairos* – Notice where the writer seems to use the “right” appeal at the “right” time
- *Read Like a Writer*: Look for extras like specific word choice, rhyme, rhythm, figurative language, symbolism, outside references, theme, etc. (basically literary elements) and point them out.
